## Tips for Making Flipbooks

### IMPORTANT

From Adobe, please make sure the Page Scaling is set to "None" in the print dialog box before printing!

1. Do a double-sided copy of flipbook "cover" and "inside". *Note: The scissors icon may be used to determine the TOP of the cover page.*
2. Fold the flipbook once vertically and once horizontally. Then unfold.
3. Locate the scissors icon and make a thin DOUBLE cut on either side of the fold, to the center. Snip.
4. Fold flaps down and close booklet.

You've only three facts to learn for "times six". Then you can add these to your bag of times tricks!
