

## Tips for Making Factivation!® Flipbooks

**IMPORTANT-** Please make sure the Page Scaling is set to NONE in the print dialog box.

1. Copy the flipbook **COVER** and **INSIDE** on a single sheet of paper (front/back).

**Note:** Look for the scissors icon and use it to determine the **TOP** of the cover page.

2. Fold the flipbook once vertically and once horizontally. Then unfold.
3. Locate the scissors icon again and make a thin **DOUBLE** cut on **EITHER SIDE** of the fold, to the center. Snip with scissors.
4. Fold flaps down and close flipbook.

If needed, visit the Teacher's Resource Room to watch the brief flipbook folding tutorial video!
